Project Name	iRevolution:A Data-driven Exploration of Apple's iPhone Impact in India using Tableau
Maximum Marks	4 Marks

Customer Problem Statement :

I am market analyst	I'm trying to understand apple's performance in India	But i don't have a visualization to analyze	Because available data is scattered	Which makes me feel unsure and inefficient
I am marketing manager	I'm trying to identify customer preferences	But i lack visual insights	Because improper traditional data	Which makes me feel uncertain

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a market analyst working for a smartphone company.	understand how Apple's iPhone is performing in the Indian market across different regions, time periods, and models.	I do not have a centralized and visual way to analyze sales trends, market penetration, and model-wise performance.	the available data is scattered across multiple sources and presented in raw tabular formats.	inefficient and unsure about making data-driven strategic decisions.

PS-2	a marketing manager responsible for planning campaigns for premium smartphones in India.	identify customer preferences, high-performing regions, and popular iPhone models.	I lack clear visual insights into user trends, quarterly performance, and brand perception.	traditional reports do not provide interactive or comparative visual analysis.	uncertain about targeting the right audience and optimizing marketing strategies.
